*Introducing our  
Revolutionary,  
Patent Pending,  
Solution -*

**All-Naturally Powered,  
Water Treatment System**

**"AquaDrop"**

The concept for the AquaDrop is simple, but the impact is life saving. Put a hose into any fresh water supply, such as a lake, a river or a well. The AquaDrop produces filtered and disinfected drinking water using naturally produced power. Power sources available can be solar, wind, man-powered turbine, back-up generator, or back-up electric grid.

The model shown, above, is a 5 GPM solar powered unit with 400 gallons of internal storage capacity, back-up petrol generator, with four water spigots on the side of the trailer. Many other power, pump, capacities, storage and backup solutions are available.

**Problem:**

**Solution:**

COST - buying, shipping, distributing and storing water bottles

• Can Refill Water Bottles and other Containers!

ENVIRONMENT - the impact of used bottled water trash and disposal

• No Environmental Impact!

INSTALLATION - utility repair in remote areas

• No Installation Costs!

POWER - not available or not feasible

• No External Power Required

HEALTH - water supply Not Safe to Drink!

• Unlimited Clean Water to Drink, Bath and Cook with!

UPKEEP - continuous need to purchase replacement filters, accessories

• No Maintenance Required!

CONTAMINANTS - Water related health, cleanliness, sickness current and future

• Removes All Harmful Contaminants!

MANPOWER - the required manpower and coordination

• One Person Startup, Requiring No Further Attention!

RESPONSE - long response time

• Instant Response Time!

SUPPLY - the need to replenish the water supply

• No Wait Time to Replenish Supply!

**Benefits and Capabilities:**

- 100% Naturally Powered
- Back-Up Generator Available
- Ease of Portability
- Variable Flow Rates Available
- No Cartridge Filters to Purchase, Clean, or Replace
- No Trained Operator is Needed
- Internal Water Storage Available
- Easily Deployed Anywhere in the World

**Global Applications Include:**

- Disaster Relief
- Emergency Services
- Rural Water Needs
- Any Remote Water Needs
- Military
- Irrigation and Livestock
- Work in the Mission Field
- Many Others!

- As you can see the **AquaDrop** use's are unlimited to your need for safe water to be distributed, anywhere, anytime, for any reason.....
